

// Web / Graphic Designer

We're on the lookout for a talented web/graphic designer to join our in-house creative team.

About Logic Design

Located in within the heart of Suffolk, Logic Design is a multi-award-winning creative agency that specialise in all forms of digital media.

From our converted barn studio, we work across a range of projects helping to build brands, create beautiful web experiences and market business within a vast range of sectors.

If you're looking to work within a friendly, creative environment and would like to join our team of passionate designers, developers and marketeers and sales consultants we'd love to hear from you.

The Role

As a designer within our team you will guide clients through their project, creating stunning media that meet their individual needs, using your experience and expertise.

Having the ability to work on your own or as part of the team, your tasks will range from designing strong brands and high-quality print material to engaging websites and user focused platforms.

Due to the nature of the role the ideal candidate would have an excellent understanding of UX design and should be up to date on all web design standards.

Strong written and verbal communication is a requirement, as is your ability to discuss projects with clients, pitch concepts and present solutions. You will be expected to confer one-to-one with clients, may need to determine objectives and should be comfortable collating revision notes and feedback. Whilst maintaining current standards is imperative, the real expectation is that you will drive up standards across the agency, executing exciting digital ideas that we're proud to add to the portfolio.

The successful client would have:

- At least 1 year of commercial experience
- Perfected skills in Photoshop, InDesign and Illustrator
- A sound knowledge of UX design
- Commercial awareness with the ability to communicate ideas to clients
- Creative thinking and skilled problem solving
- The ability to delegate tasks and project manage
- Strong communication skills
- Up to date knowledge of the industry and its ever-evolving trends

Other desirable skills include:

- 2 years + experience in the same role
- Understanding of responsive design
- Being able to lead full projects

Salary

Competitive wage structure based on experience .

Wanting to Apply

If you feel you would be suitable for the position advertised and would like to become part of the successful Logic Design team, please send your CV and covering letter to howie@logicdesign.co.uk.

Alongside your CV please feel free to send any examples you feel demonstrate the skills required as well as questions you may have about the role.

As part of the application process we may also be asking applicants to complete a small design proficiency test at the interview stage.
